-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-18 and 21-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 11, "the extracted pectinaceous soy material" in line 5 lacks antecedent basis. An earlier form of the claim provided support, but now the direct reference to an earlier extracting step has been removed.

Claims 11, 21, and 28 are confusing with regard to the reference to "a solid residue" (e.g. claim 11, line 7). It is not clear what solid residue is being set forth in relation to previous processing steps.

Allowable Subject Matter

2. Claims 11, 21, and 28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
3. Claims 12-20, 22-27, and 29-33 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
4. The prior art of record neither discloses nor teaches the particular process of producing soy pectin as specifically set forth in the instant claims. Considering the two closest references, neither Yamaguchi et al nor Gnanasambandam et al disclose

Art Unit: 1761

treatment of a mixture of soybean hull and hypocotyl material. Yamaguchi et al treats dried soybean okara rather than hull and hypocotyl material; okara is the insoluble portion separated from soymilk. Although Gnanasambandam et al discloses treatment of soybean hull, but there is no reference to treating a mixture of hull and hypocotyl material and no motivation to include both soybean hull and hypocotyl in processing. In addition, Gnanasambandam et al does not use mineral acid in the original extraction, but, instead, uses sodium hydroxide which directly teaches away from the mineral acid treatment employed in the instant claims. Yamaguchi et al is silent regarding a particular cooling step and pH reduction after extracting a pectinaceous soy material and there would be no motivation to modify such process to include this step.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 571-272-1409. The examiner can normally be reached on Monday-Thursday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398.
